## **H. THOMAS DIBACCO**

### **Summary of Qualifications**

Tom DiBacco has over 30 years of experience in the environmental field. During his long tenure with Dominion Resources, he was responsible for all environmental concerns at the Mt. Storm and North Branch Power Stations located in West Virginia. In this position, he was responsible for compliance with all environmental regulations, Continuous Emissions Monitoring Systems (CEMS) as well as groundwater monitoring and radiation safety. Tom has extensive experience in air, water, hazardous waste and ash disposal. He was also responsible for the management of the Mt. Storm Lake and over 10,000 acres of land. Tom is a Class 1 Public Water Supply Operator and has operated wastewater facilities up to 150,000 gpd and managed the NPDES program for Mt. Storm.

Tom has worked in various aspects of the wind industry for the past 15 years. His experience includes site evaluations, wind prospecting, development, data analysis, landowner contracts, permitting, mitigation of wetlands and environmental issues pertaining to wind energy development.

Tom has a Bachelor of Science in Environmental Engineering from Kennedy Western University. He also has an Associates Degree in electronics from DeVry Institute of Technology and attended Fairmont State University.
